Length:	150-200mm
Plate size:	90*24mm
Material:	Nano ceramic coating
Features:	Swivel cord, digital display, ionic technology
Accessories:	1 year warranty, user manual

F601C Product Description:

F601C is a professional hair straightener with ionic technology. It features a nano ceramic coating plate that provides a smooth, shiny finish. The device is equipped with a digital temperature control system, allowing you to adjust the heat to your hair's needs. The ionic technology helps to reduce frizz and static, leaving your hair soft and manageable. The swivel cord is designed to prevent tangling and damage to the cord. The injection black shell is durable and stylish. The silk print logo is a touch of elegance. The negative ion generator helps to neutralize positive charges in the hair, resulting in smoother, healthier-looking hair. The plate size is 90*24mm, providing a wide surface for styling. The power is 25W, which is suitable for most hair types. The device is compact and easy to carry, making it a perfect travel companion. The 1-year warranty and user manual provide peace of mind and guidance.

Ionic technology hair flat iron F601C

Product Advantages of F601C:

The F601C hair straightener offers several key advantages. First, its ionic technology effectively reduces frizz and static, leaving hair smooth and shiny. Second, the nano ceramic coating plate provides a gentle yet effective heat, protecting hair from damage while styling. Third, the digital temperature control allows for precise heat adjustment, ensuring the best results for different hair types. Fourth, the swivel cord is a practical feature that prevents cord tangling and extends the device's lifespan. Finally, the compact and lightweight design makes it easy to carry and use, whether at home or on the go. The 1-year warranty and user manual further enhance the product's value and reliability.
