F998DV Product Description:

The F998DV is a professional-grade ceramic curling wand. It features a clipless design for easy use and an adjustable temperature display to suit different hair types. The barrel is made of tourmaline ceramic, which provides smooth, frizz-free curls.

Tugging, the clipless design allows for easy access to the hair. The adjustable temperature display is a key feature, allowing you to customize the heat to your hair's needs. The tourmaline ceramic barrel is designed for long-lasting curls.
