Power:	Professional grade power for salon use
Plate Size:	110x29mm
Annual Sales:	USD50-200 million
Features:	Temperature control, auto shut-off, infrared technology, etc.
Warranty:	1 year warranty, 2 years parts
Certification:	ISO9001
Other Info:	PTC heating element

F601HF Product Description:

The F601HF hair straightener is designed with advanced infrared technology. It effectively seals the hair cuticles, providing a smooth and shiny finish. The infrared rays penetrate deep into the hair shaft, activating water molecules and improving blood circulation. This process helps to regulate the autonomic nervous system, promoting overall hair health and growth. The device is lightweight and easy to use, making it a professional-grade tool for salons and home use.

Infrared hair flat iron F601HF

Product Advantages:

The F601HF hair straightener offers several key advantages. It uses far-infrared technology to heat hair evenly, reducing damage and frizz. The infrared rays help to activate water molecules, which improves the hair's natural moisture balance. This leads to smoother, healthier hair. Additionally, the device is designed for professional use, with a long lifespan and reliable performance. The ergonomic handle ensures a comfortable grip, making it easy to use for extended periods.

Blister inner tray
