**F601HF Product Description:**

The F601HF is a professional hair straightener with a rubberized shell and a digital temperature control system. It features a far infrared ray technology that provides multiple benefits for hair and skin.

**Infrared Technology:**

The FBT (Far Infrared Ray) technology uses a wavelength of 0.763 μm, which is effective for hair care. The infrared rays penetrate the hair shaft, providing deep conditioning and heat treatment. The wavelength is in the range of 5-10 mm, which is ideal for hair straightening and styling.
