Delivery detail:	30 days after deposit

How to use:

1, STRAIGHTENING HAIR

For optimum styling, hair should be clean and dry.

- 1, Start by sectioning the hair into strands of not more than 1/2-inch thick and 2 inches wide.
- 2, Take one section of hair at a time and place iron as close to the root as possible and slide through to the ends without stopping.
- 3, Do not pull through too quickly, straightening each section once and slowly will give a far better result than straightening each section multiple times quickly.
- 4, Repeat this process until all sections are completed.

CREATING CURLS AND FLIPS

For optimum styling, hair should be clean and dry.

- 1, Start by sectioning the hair into strands of not more than 1/2-inch thick and 2 inches wide.
 - 2, Place the iron as close to the root as possible and slide through the hair slowly in a downward motion simultaneously twisting and turning the iron.
 - 3, Do not curl too quickly, curling each section once and slowly will give a far better result than curling each section multiple times quickly.
- Repeat this process until all sections are completed.
