**How to use wave plate crimper hair styling iron F308E:**

Wide plate is always suitable for all kinds of hair, here F308E is one of the most popular hair crimp plate hair styling iron with 45mm wide plate, and we could make crimp hair effect through very easy working.

First of all, we must wash and clean our hair, and blow it dry, then brush hair smooth and nice.

The second step is to separate all of your hair into two large section, blind the top section and leave the bottom sections for styling.

The third step is separate the bottom sections into several small sections, and switch your hair iron on and get ready to style.

The fourth step is take a nice long section, come out flat start as close to the roots as possible, just squeeze for a couple of seconds and release them, make sure you are lining up the crimps each time, so there's a nice continuity.

The other way to make a little bit more high fashion crimp, take a section again back home, it all the way up to the root first, and then, take the crimper and just slowly squeeze over the top, no need to worry about the direction, and get rid of the lines.

The fifth step, take a soft brush and start brushing out from the bottom.
