#### How to use it:

The first step needs to blow dry hair as normally was, and section off your hair, take a small section you do want to styling at a time.

The second step is switch on the round hair brush and heat up, it's better to styling your hair with brush and dryer, the effect is more obviously.

The third step is to put the hair brush to hair roots, and slide it down slowly, and then wind your tip hair to the round brush, the effect is the small curl at the end of your hair.

The fourth step is, if you don't think the effect is same as your image, just run again.

You could make different angel according to choose different size of brush.
