How to use round hair brush F998BC:

The most important of the hair styling iron is to change your hair style, but heated round brush not only can smooth your hair through, but you can go back and create curl, so after completing smooth style, go back and create a curl stylist. Let's change this look take a nice clean section, and get the hair out of the way.

1. Take a nice large section, it's always easy when you're working with textured hair to go ahead and smooth out.
2. Brush through, and place the stylist on top of this section of hair.
3. Rotate backwards and give a half term with stylist and hold the left out ends with your hand and lightly going to glide through.
4. Go slow and let the hair effortlessly slide over the brush and get to the end and control them by suing your hand.
- 5 Simply go back and reform the curl.
