How to use:

175mm length barrel is suitable for short hair and long hair, different barrel size can make different curl effect, here are the instructions for use:

Plug the appliance into the socket, and then move the ON/OFF button to turn it on and the power indicator light will turn on.

Press the push button and set the temperature as you like, dry and tidy hair, separate it into several parts.

Hold your hair firmly wrap around the barrel, and slide down from root to tip, you could turn the temperature slowly at the beginning of styling.

if curls doesn't come, then you turn the temperature little up or do the same movement again until the curls effect reached your expectation.

Switch off the appliance and unplug the adapter immediately after use, allow the appliance cool down completely before storing.
