### How to use it:

Mini hair straightener is mainly for bangs hair, short hair or traveling usage, mini hair iron is work in a short time to makes your hair natural, shiny and nice, but that's not mean mini hair can't work for long hair, patience it then you can acheive the same result.

So the first step is, brush your hair smooth and get ready to style.

Then switch on the hair iron , wait for about 15 seconds, they can start work within 15 seconds.

3rd, break your hair into several small sections, and clip the other sections avoide any influence.

4th, clip yur hair with hair iron from roots and slide down slowly to tips.

5th, if straight hair or curl hair doesn't come, then run up again, at that time, you could try to slide down more slowly.
