### How to use:

With a little experienced, you can creating volume easily using our heating hair styler.

1. For best result, start with nearly dry hair, separate into sections;
2. Turn the brush on and select the desired heat setting for your hair;
2. Place the styler into the hair, close to the root, slightly giving tension and brush through the hair straight towards you.
3. When there is about 3-5 inches left, wrap the remaining hair inwards to the heat brush, creating "C" curl release the heat brush lightly.

4. Repeat the same process and until all the section is finished.

Tips: Before drying use a little mousse to add volume or styling gel to smoothness. Add a drop of serum after hair is dry to keep away any frizzy.
