More information about the hair wand F998DA:

As we see on the picture, they shown the two different color, and one gray one white on the same product, because our temperature indicator circle is off-color when barrels with different color, gray when cool and white when hot. And for the temperature display, there are two keys control the temperature, in fact, the key "+" can also control the power, if you want to start work, you need to press the key "+" about 2 seconds, then the appliance will be turned on.

Temperature indicator circle

Press the "+" key about 2 seconds
The appliance will be turned on

The other option for this hair wand:

Mirror titanium barrel is one of popular choose for most of the salon usage for the advanced technical and high quality titanium material, but most of our client are also like below ceramic tourmaline coating barrel to makes different health hair. And there is also a new type of handle with 3 keys for power control and temperature setting, another different is the temperature readout, this is a professional LCD digital readout instead of the 4 light digital readout.

1. Ceramic coating VS mirror titanium VS titanium barrel for option;
2. LCD digital readout temperature display VS 4 light digital readout temperature display;
3. 2 keys temperature and power control VS 3 keys temperature and power control.
