How to use tapered curling iron F998EV:

Heated curling iron F998CK is a home usage hair curling iron which is easy styling and easy working, FBT support different barrel size to make different curl effect. Here we chose the 25mm barrel to curling hair.

First of all, we need to wash your hair and blow dry, brush your hair nice and smooth.

Then, separated your hair into several sections, usually we styling from bottom sections to top sections, so we can leave the bottom hair at the beginning.

Third, take a small section of your hair, switch the hair flat iron on and get ready to styling.

Fourth, put the curling iron to the roots of the hair, and wrap your hair around the curling iron from root to tip.

Fifth, hold the curling iron about ten seconds, and then release it, and use your hand hold the

released hair.

Sixth, do the same movement for all of your other left sections, and then using your fingers brush your hair.
