How to use:

Hair care Heated PTC curling iron F998G is good for curling and waves. Here is some useful step for hair styling.

First of all, we need to wash your hair and blow dry, brush your hair nice and smooth.

- 1, Plug in and press the "on" button to the desired heat setting
- 2, Desired heat is reached when red indicator flashes(90 seconds)
3. Part your hair into several sections,
4. Grab a small section of hair , and wrap your hair around the iron from roots to middle of your hair, slightly open clamp and get your way down little by little until the end of the tip.
Go ahead and gently release the section hair, using your finger comb this section, then the natural wave comes with you.
5. Repeat the same process, until all the section is finished .
6. Finishing the Lightly spray hairspray to give your curls hold.
