### How to use it:

F601E wave plate is a professional hair iron for home user or salon user, titanium is used for gun barrel, but we use it in our hair iron.

Now, the following steps are what we are going to do to make the crimp hair use our wave hair iron.

The 1st step, wash your hair and blow dry, come your hair smooth until it's get ready to style.

The 2nd step, section off your hair with clips, and leave a small section for styling.

The 3rd step, switch on the hair iron, setting iron's temperature to a suitable grade, how high is depends on your hair texture.

The 4th step, clip hair roots with hair iron, and keep hold for a few seconds, then release them.

The 5th step, clip the follow position of the same position until you styling the whole section with you satisfied crimp effect.
