How to use:

X-styler easy for straightening and styling. It can do " S" curls, " J" curls and " C" curls.

For straightening, select the suitable temperature for your hair, when the indicating blinks, you can start to place the iron close to the root of hair and slide through to the ends without stopping. The important tip is that do not slide too quickly for a better straightening result.

For styling, select the suitable temperature, put the hair between the two heating plates and wrap it around the plate in different angles for different styling results(in the attachment). Hold the hair for a few seconds for a better styling result.

Comb & Straighten

"S" curls

"C" curls

"J" curls

About the FBT company:

FBT is the professional hair flat iron manufacturer in China since 2004. OEM/ODM orders are welcome. Our R & D department is responsible for the product design, package design and mould development.
