

Shell: injection finishing or rose golden painted finishing
Plate: diamond coating plate, keratin, argan oil, nano-silver infused or customized nano titanium plates
Plate Size: 20*110mm/ inch
Heater: MCH heating system/ceramic heater or PTC heaters.
Temperature: MAX temperature 230°C/450°F or higher
Temperature display: 5 lights digital temperature display
Power: 110W, 50/60HZ,110V-220V, dual voltage
Cord: 360° tangle free swivel cord, 2.65-3M(9 feet) PVC wire
Plug: EU plug, US plug, UK plug, PSE plug
Certification: CE, Rhos, cETLus, CCC, CB

Model name: F601HB
Material: PET
MOQ: 1000PCS
Power: 110W, 50/60HZ,110V-220V, dual voltage
Cord: 360° tangle free swivel cord, 2.65-3M(9 feet) PVC wire or customized
Plug: EU plug, US plug, UK plug, PSE plug
Certification: CE, Rhos, cETLus, CCC, CB

Shell: Injection finishing or painted finishing according to customer requirements.

Heater: high quality heater ---PTC or MCH heaters.

Temperature settings: up to 230C/ 450F

Power: 120V-240V, 50/60HZ,115W91MIN) / 60W(steady)

Motor: /

Dual voltage 110V-240V

Cord: 2.65m tangle free swivel cord or customized length and material

Plug: US plug, EU plug, BS plug, UK plug

Certification: CE, Rhos, cETLus, CCC, CB ets

Plate size : 28mm × 105mm

Weight : 380g

Foldable: No

Logo: Customized

Wire label: Customized

Technical Label: Customized

Package: Customized

Main markets: Western Europe, North America, Asia, Middle East

Number of factory employees:80-150

Marketing selling points of F601HB:

- √ Super S plate for straightening and easy styling.
- √ Best choice for straightening and styling, and household usage;
- √ Championship of Germany Salon Star show,
- √ Won the salon tools championship in Germany in 2016

- √ Korea ceramic super smooth coating or titanium plate for selection.
- √ High quality nano silver infused mirror titanium heating plates can leave your hair with shiny and silky effect.
- √ Auto-shut off function---60 minutes.
- √ Temperature range: Up to 240C/470F---160, 180, 200, 220, 230 °C
- √ Fast heating up: 30S heats up to 200C/390F
- √ Safety lock design
- √ LCD/digital display design
- √ Cooling tip and cooling handle design
- √ 360 rotating swivel power cord---2.65m or 3m—tangle free.
- √ Power: 60W
- √ Automatic shutdown - 1 hour
- √ OEM ODM service are available
- √ Self owned PCB design team, mold development team, and assembly lines.
- √ Packaging design service
- √ Logo design service
- √ Mold development and design service
- √ 100% customization service to help to build your brand.

Packaging & Delivery:

Packaging Details:	*gift box packing *size of GB: 10.5x30x5.4cm *24pcs/ctn *size of carton:44X31.5X34.5cm *G.W:16.2kgs *N.W: 9.6kgs *1X20GP=14500pcs *1X40GP=29000pcs
Delivery Detail:	30 days after deposit

How to use:

1, STRAIGHTENING HAIR

For optimum styling, hair should be clean and dry.

1. Starting with sectioning the hair into strands of not more than 1/2-inch thick and 2 inches wide.
2. Take one section of hair at a time and place iron as close to the root as possible and slide through to the ends without stopping.
3. Do not pull through too quickly, straightening each section once and slowly will give a far better result than straightening each section multiple times quickly.
4. The S plate curve can give a very nice glide on the hair, so it is easier for people to style their hair effortlessly.
5. Repeat this process until all sections are completed.

CREATING CURLS AND FLIPS

For optimum styling, hair should be clean and dry.

1. Starting with sectioning the hair into strands of not more than 1/2-inch thick and 2 inches wide.
2. Place the iron as close to the root as possible and slide through the hair slowly in a downward motion simultaneously twisting and turning the iron.
3. Do not curl too quickly, curling each section once and slowly will give a far better result than curling each section multiple times quickly.
4. Repeat this process until all sections are completed.

Why choose us?

- (1) As a hair tools manufacturer, we have professional and experienced R&D team, full facilities from design to molding to assembly lines—including outlook design, PCB arrangement, tooling and packaging outlook design.
- (2) Reliable and strict quality control system. 100% testings will be done for all of our products before shipment to make sure every unit in perfect condition.
- (3) Competitive price. We specialize in this line as a hair tools manufacturer for 16 years, and we are confident to provide you the best quality product with reasonable price. Professional only for hair tools .
- (4) We provide you with efficient and comprehensive pre-service and after-service.
- (5) Both OEM and ODM are acceptable.
- (6) You can give us your product idea and easily tell us what you want, and we will make it come true.
- (7) Buying directly from factory give you more reasonable price and better service and a peaceful mind after purchasing.
- (8) Efficient communication and support from our professional sales consultant.

Q&A:

1. Q: Are you a factory or trading company?

A: We are the original factory for hair tools including hair flat iron, curling iron, hair dryer, hot air brush for 16 years.

2. Q: Can I have my own customized product?

A: Yes, you can customize for color, logo, design, package, carton mark, etc. as long as your order quantity is 1000pcs or more. That is exactly what we do and what our job is .

3. Q: How and when can I get the price for the product I am interested in?

A: We will reply you in the first time within 24 hours. If it is an emergency, just call +86 13823651633

4. Q: How can I get a sample to check the quality and everything?

A: Sample fee will be paid by the buyer, but it will be refunded after placing an order with us. It usually takes 7-10days to have the samples ready.

5. Q: Can I make my own brand color?

A: YES. You can tell us the pantone No. or send us color sample chip. We can do any spay shinny effect color or water transfer color or almost any color you want.

6. Q: what about the lead time for mass production?

A: It will take about 45-60days for mass production after deposit received and all the details confirmed.

7. Q: How does your factory do regarding quality control in work?

A: Quality is priority! Every worker keeps the quality control process in mind from the very

beginning to the very end:

- 1) All the raw materials we are using are environmental-friendly and certificate regulated.
- 2) Skilled and experienced workers care every detail when handling the producing and packing process.
- 3) Quality Control Department is responsible for quality checking in each process.
