### **How to use:**

[You can use it as a straightening iron and a curling iron to fit all your needs](#), generator ion is auto-working while you switch on the appliance.

With this hair styling iron, you can make perfect hair style quick and easy in the comfort of your home. Here are the usefull steps for straightening.

- 1, Make sure your hair is clean and dry before hair styling.
- 2, Apply a hair protection serum to prevent your hair from damage.
- 3, Plug the hair iron into the switch on, select the proper temperature for your hair type.
- 4, Divide your hair into sections.
- 5, Place the styler close to the roots of the section ,take a small wisp of hair, grab hair straightener and clamp the hair iron down.  
run the hair styling tools slipping down slowly.
- 6, You can run the hair iron over the section for several times until completely straight.
- 7, Repeat the same process until you finish the all the section straightening.
- 8, After straightening, Apply a hair spray for long lasting hair style result.
