Advantage of titanium plate:

[It is a durable product and is known for high resistance](#)

1. Titanium plates' polished surfaces move smoothly on hair, preventing tangling and ensuring your locks are protected from potential damages.

2. Ladies can use these items for a long time as the titanium plate prevents rust due to its anti-corrosion property.

Heat conduction: titanium flat irons are known to be really good heat conductors. This makes sure that the flat iron can provide consistent heat which makes it a potent weapon against hair damage,

3. Provide consistent heat which makes it a potent weapon against hair damage due to good heat conductors.

4. The titanium plate heats up the flat iron in no time, you will find it helpful if you are in a hurry. Meanwhile it has a good ionic output which assists the product to transfer heat to plates of the flat iron much faster.

5. The titanium irons are lightweight than other irons, so your arm doesn't feel tired when straightening very long or thick hair.

6. High durability and resistance preferred choice for heavy usage, leaves hair with a silky texture.

High durability and resistance preferred choice for heavy usage, Leaves your hair with a silky texture, Eliminates frizz, Best for thick, coarse and normal hair. High durability and resistance preferred choice for heavy usage, Leaves your hair with a silky texture, Eliminates frizz, Best for thick, coarse and normal hair.
