How to use:

It can be used for both [straightening and styling](#). All should be done on clean and dry hair.

With this hair straightener, straight hair is remarkably quick and easy in the comfort of your home. Here are the steps.

- 1, Prepping your hair to heat, all should be done on clean and dry hair.
- 2, Use a hair protection serum if you have one (Optional)
- 3, Plug the flat iron into the switch on, the infrared red light is auto working when you switch on the item
- 4, Separate hair into several sections
- 5, Place the straightener as close to the roots of the section as possible without burning yourself.
- 6, Clamp the iron down so that the heated sides touch and your hair rests between them.
- 7, Run the flat iron down the length of your section of hair.
- 8, Run the straightener over the section several times until it is completely straight.
- 9, Move the straightened piece out of the way and unclip a new section of hair.
- 10, Repeat until you finish the straightening
- 11, Apply a hair spray, a post-straightening product, or a setting spray to keep your hair straight all day.
