How to use:

2 inch professional hair straightener iron is perfect for faster styling on thick, afro or curly hair.

Step1:Insert the plug into electrical outlet, Heat the iron to your desired temperature.

Step2: Part your hair into sections to make the process easier and faster,

Step3: Clamp the hair closed to the root in between the plates, Twist the straightener a full 360 and glide down the length of the hair. Release the curl and twist the hair with your finger to shape.

Step4: Follow the same process until your entire hair is curled. Grabbing smaller portion at a time makes the curl tight, while bigger section makes the hair bouncy and the curls are looses and more natural.

Step5: Gently run your fingers on the head to make the curl little looses so that the volume will look great and more natural. Spray a mist hairspray for long lasting curls.
