How to use it:

Titanium hair flat iron is the most popular hair iron for salon user, it is easy to operation for straightening the hair.

First of all: Make sure your hair is totaly clean and dry, brush them smoothly with wide comb before styling

Step 1: Turn on the hair flat iron and wait your styler to heat up.

Step 2: Part your hair into several sections, how thin of the section is depends on your hair texture.

Step 3: Using your hair straightener clip the hari section and place it as close as to the roots, but not to close avoid to burn scalp.

Step 4: Gently down slowly from the roots to tip, never keep the iron in the same spot for long as this will damage your hair.

Step 5: Repeat the same process if you think your hair is not straight enough.

Step 6: After finish all the section, using the hair spary to keep long lasting style.
