How to use the hair flat iron:

STRAIGHTENING:

1. Take a small section narrow than the plate, apply the heat protection spray and comb through.
2. Place the hair irons as close to the root and slow strole from root to tip gently.
3. You can straighten on section for 2 or 3 times until you get the best result.
4. Repeat the above process until finished

Beach waves:

1. Take big upright sctions and do not close to your face avoid burn. Place your styler near the root, writhe it at 360 degree going down.
2. Slide through the hair slowly, it will give a better result.
3. When finish, with you finger to rubbing the waves for a tousled , natural texture.
4. For matte texture, try shampoo or a spray.

More useful tips for using hair straightener:

- * Before using the straightener, make sure your hair is completely dry.
- * You can apply oils to wet hair before styling and afterwards to "smooth over any difficult frizzy bits."
- * Turn the heat up on your straightener, the thicker hair, the hotter straightener.
- * When straightening hair, or even while blow-drying, keep in your mind that brush for dry hair and comb for wet!
